

Scale How

29.1.18

3) Incorporation

.... I am glad you are moving in the incorporation matter. Also a little bird tells me that Lady A is fostering new Branches ever so. I am so glad, because some day, we hope to see each Branch a sort of centre for the spiritual (including intellectual) profit of all classes in its neighbourhood.

22.1.18

2) Incorporation

My dearest,

What a sweet letter you had written me, and there is not the ghost of a 'fly' left, but if my friend says such things about this person, people will say Lady A's geese are swans!

... One thing more, Dear, besides my loving thanks: you say nothing about incorporating the Union. It would cost about £40 which I know you cannot afford with all the propagation expenses, but I cannot leave this place to any person for the present, must we not? In their posts, students are responsible, and should be free from additional strain...

9) Incorporation

17.1.18

... What you really must do very soon is become incorporated so that I may have this properly to the Union.
